**Re: Petition for Exemption from Closed Captioning Rules**

Dear Secretary:

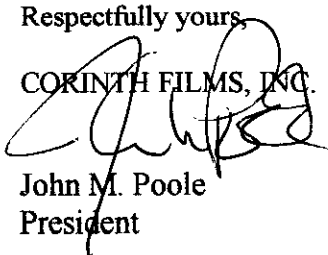

This petition is filed for the undersigned, Corinth Films, Inc., pursuant to the FCC's guidelines for petitioning the Commission for an exemption from the rules requiring closed captioning programming where compliance with the rules will result in an undue burden (47 C.F.R. § 79.1 (F)).

Corinth Films, Inc. is a video program distributor which has been providing older classic movies and TV shows to broadcast and cable television channels for the past 25 years. Our current library consists of approximately 1,300 hours of programming, all originally released between 1925 to 1995 and aired on television prior to 1998 (see attached List of Titles by Category and Release Dates). With Corinth's annual gross revenues under \$500,000 for our past two fiscal years ending June 30, 2005 and June 30, 2004 (Federal Income Tax Return for Corinth's fiscal years ending 6/30/05 and 6/30/04 available on request), we are well under the \$3,000,000 in gross revenue which would qualify our company for an exemption from the closed captioning requirements. In addition, with 1,300 hours of programming in our library, the cost to close caption this programming would be an undue burden on our company and would put us out of business.

Corinth Films provides a valuable service in distributing quality classic programming at a low cost to local PBS, commercial and college channels. These customers have advised us that we either have to certify that our programming is closed captioned or confirm that we have an exemption from having to provide our programming with closed captions. We are therefore appealing to you to grant Corinth an exemption from closed captioning our programming so that we can continue functioning as a business.

Respectfully yours,

CORINTH FILMS, INC.
